

Federal University of Itajubá – Unifei

Dear Matheus Pedrino,

Thank you for taking your time to help us with our future team. Our meeting certainly was very helpful and opened our eyes for everything that will be necessary to build a team in our university. Experiences that you shared, like, what we need to start, how to earn some money to help the project and which resources are necessary, will allow us to develop our team in a faster and better way.

We really appreciate that you took so much time to know and help us. It is no wonder that we will try to build a great team for the iGEM competition. We will learn a great deal from all this project and, hereafter, we will be able to help each other.

Now we are further convinced that this is possible and we will make what is in our reach to make it a reality.

Your sincerely,

Ana Elisa Sousa

Davi Benedito Oliveira

Gustavo Moreira Silva
